Claims that were processed by pharmacies for Ohio Medicaid through ACS on 5/21/07 were run through the ODJFS payment system twice and paid twice. The duplicate payments were included in the payments that went out on 6/13. These remittances were also short by one day's claims.

We have identified the problem and have taken steps to correct it. When this week's payments are processed, the duplicate payments will be taken back. This will show on the payments sent 6/27. The 6/27 payment will also include an extra day to catch up from the day that was missed.

Beginning with the payments scheduled for 7/5, all payments should be back to normal.

Questions about remittance advices and payments may be directed to ODJFS Provider Network Management at 1-800-686-1516. Representatives are available Monday through Friday, 8 AM to 4:30 PM.
