

**ODJFS Methods for the
Independent External Quality Review
Data Quality Measure**

Provider Agreement Effective July 1, 2005 to June 30, 2006

Contact: Kendy Markman
Issue Date: July 21, 2005

Medical Record Submittal Rates

The percentage of requested records for a study conducted by the External Quality Review Organization (EQRO) that are submitted by the managed care plan.

Numerator: The number of submitted medical records.

Denominator: The number of requested records adjusted as follows: If no medical record is submitted, the EQRO will search encounter data to determine if the member had an encounter during the time period covered by the study. If there is an encounter with a physician for the member, then the requested record will be included in the denominator. However, if there is no encounter with a physician for the member, then the requested record will be excluded from the denominator.

Data Source: Submitted medical records and encounter data.

Report Periods: Results finalized during SFY 2006
