

SCOTI

August 2004

- 1) *Am I correct when I say the individual responsible for employee profiles at each county agency would be the person who identifies who may look at Discoverer reports?*

I looked at your role and you only have a case manager role in WIA. That will only allow you to see your cases in Discoverer. An individual's role and who they are designated to supervise will determine what information they can see in Discoverer reports.
