

SCOTI

November 2004

- 1) *I am going through the process of entering a service/activity for a younger youth. The goal is work readiness. I had no problem entering this in the "Goals" section.*

*I am trying to enter "work readiness" as a service activity for this young person and others that are in the program. I have always entered it under occupational skills. Now, SCOTI won't let me do it without an O*Net code. I don't think there is a code for "work readiness" we use for our in-school youth.*

What do you suggest?

For youth, we are recommending that if you are providing work readiness activities, you should choose "Leadership Activities" as their youth activity. We don't recommend using Occupational Skills training for this. If you choose "Leadership Activities", you won't have to be concerned with O*NET codes.
